Full-Stack web/software developer educated in web development through Rutgers University certification program. Developed skills in HTML, CSS, JavaScript, Node, React, and more through Rutgers. Driven to reach goals while lacking a CS degree. Committed countless hours to acquiring expertise in computer science fundamentals, data structures & algorithms, and the ins and outs of popular languages. Completed online CS fundamentals and data structures courses provided by Harvard and UC Berkeley, studied programming textbooks front to back, and devoted hours to practicing.

TECHNICAL SKILLS

Languages: HTML, SQL, Java, JavaScript ES6 (Node, Express, React)
Applications: MongoDB, MySQL
